

ST. JOSEPH'S SR. SEC. SCHOOL
Sector 44-D, Chandigarh

Vision

*Fostering brilliance in every head, heart & hand
through Reflection, Research and Renewal*

Annual Report 2022-23

*Cultivating & rendering ethos of
integrated learning in the
hearts & mind of every child*

From Chairman's Desk

*“Education is the manifestation
of the perfection already
existing in man.”*
-Swami Vivekananda

Dear Parents

A school is a microcosm of the universe, and an excellent space to inculcate practices that can help students throughout their adult lives. Education is a collaborative effort that involves proficient administrators, resolute teachers and galvanized students.

Adopting a synergistic learning approach has helped us to inculcate life skills and critical thinking skills in our learners. When life practices are within a pedagogical framework, learning fulfils the purpose of raising responsible citizens.

To provide inimitable qualitative education, by constantly upgrading our methodologies is our raison d'être. At St. Joseph's we believe that it's our moral responsibility not just to educate the mind but also to nurture the heart and strengthen the spirit so that we can contribute to the holistic development of every child.

It's heartening to look back on the session gone by- to see the accolades and love garnered by the earnest endeavours of our students and staff in both scholastic as well as co scholarship arenas.

We are immensely fortunate to have been bestowed with the gracious benediction of the Almighty in achieving every goal that we have set out to attain. In the last session, St. Joseph's received the, Plastic Pollution Free School by the Department of Environment, Chandigarh, Second Prize at Parade Ground for Best Cultural Performance by Chandigarh Administration, Swachh School by Municipal Corporation, Chandigarh, Girls India Awards ("G20's Success with Active & Vibrant Engagements of Girls, Women & Civil Society") by Yuvsatta, Best Practices Award by CCPCR. We are also proud to add Aiklavaveer Singh Rana as Second Rank holder in UT & Third at the National Level in CBSE Class 10th board exam to our hall of fame. Thanks to the collaborative efforts of the members of the Josephian Family, we hope to keep notching up such honours, in the sessions ahead.

The unconditional support of Parents is the most strengthening power which enables us to mould the future of our children. Parents are undoubtedly the primary educators of children, but once the child starts schooling, we proudly walk shoulder to shoulder and share the responsibility together. So a heartfelt and sincere thank you to our dear Parents.

Looking forward to another fruitful session ahead, to blazing a trail through many more uncharted territories and always leading by example. Reach high for the stars lie within you.

Dream deep for every dream precedes the goal - Rabindranath Tagore

Rupinder Singh
Chairman Emeritus

"Let's turn small steps into giant leaps together for our stars to outshine today and always."

Vote of Gratitude

Dear Parents,

We are humbled & delighted to share our accolades won for the unique & extra ordinary endeavours of students and staff during the session 2022-23.

We strongly believe in the fact that the school can't earn any laurel without parents' support & contribution.

Therefore, we take this opportunity to thank all the parents, our important stakeholders, for their relentless efforts in strengthening their bond with school through deep conviction & involvement in all school programmes.

Looking forward for strengthening our relationship and reaching greater heights in terms of students' performance and school's vision.

So, here we take pride in sharing the achievements of the session 2022-23 with you all, expressing gratitude and seeking the blessings of God Almighty for the year ahead.

From
Team St. Joseph's

MESSAGES FROM OUR MENTORS

40+ years of
Glorious Journey

Kindergarten

'Kindergarten students are like tiny seedlings, full of potential and eager to grow and the teachers are the magicians who nurture these seedlings to make their garden bloom'

Kindergarten is a crucial stage in a child's educational journey, and it is essential to provide them with a strong foundation for future learning.

The primary focus is on promoting the holistic development of children by fostering their cognitive, emotional, social, and physical skills. Components of Early Childhood Education like Focus and self-control, Communication skills, Critical thinking, Engaged Learning are embedded in our curriculum which prepare our kids for positive long-term benefits and success in life.

Children are taken for the in city educational tours where they get chance to learn and explore in their natural environment. Art, music and sports are also an essential part for creative expression and developing their gross and fine motor skills. To make the learning fun and engaging for young children, teachers use a variety of teaching strategies including storytelling, group activities, educational games, hands-on activities and experiments.

We are delighted to mention that Kindergarten annual function 'Rhythmic Beats 2023' was a great success with massive participation from all the students. Kudos to all the children and our sincere gratitude to the parents for their association & partnership with the Teachers and School Management.

Ms Shimmi Jassal
Coordinator

Primary 1

"Education is not the learning of facts, but the training of the mind to think."

We stand poised on the threshold of a new era, an era of renaissance, an era of change in the dynamics of education. In the light of the same, our aim is to equip the students to emerge holistic human beings who continue to grow in knowledge, curiosity, courage, creativity, achievements, confidence, competence with sense of fulfillment and understanding.

Primary school years are an important phase as they lay the foundation for the child's learning. This is the stage when along with the social and emotional development, more work is done on language and conceptual development. At a Primary level, we formulate the curriculum according to the basic principles of "Child Development" and "Children's Learning".

- We provide a diversified learning environment with a gamut of learning opportunities which facilitate the children to develop on their 'Multiple Intelligence'.
- We nurture the potential and talent of each child so that they grow up to be the absolute best version of themselves.
- A combination of projects, real life exposure, audio-visual presentations, classroom teaching, experiential learning and brainstorming activities are used to make learning fun, exciting and interesting.
- Art is integrated with the teaching and learning at all levels of imparting education which hones creative skills of the students.

At the end, the words of Albert Einstein "Imagination is more important than knowledge". For while knowledge defines all that we currently know and understand, imagination points to all we might yet discover and create.

Ms Shelza Arora
Coordinator

Kindergarten

"If a child can't learn the way we teach maybe we should teach the way they learn."

We in accordance with NEP have introduced new teaching methodologies for the students of classes 3, 4 and 5 through Art Integration, Experiential Learning, Creative thinking etc to make learning enriching and fun.

Our main motive of using new pedagogical tools is to transform our young learners into the five 'R's of Learners

1. Resourceful Learners- Who imagine , adapt different methods and inquisitive
2. Reasoning Learners- Who gain the ability think create and apply
3. Responsible Learners – Who are independent and work together as a team
4. Resilient Learners- Who focuses targets and goals
5. Reflective learners- Who learn from their mistakes and analyze their learning.

The above processes of learning focuses on long term learning and immensely reduces rote learning which builds confident learners. It promotes better understanding of concepts and lays emphasis on practical applications to daily life and life skills.

In order to enrich and to implement these skills effectively in students , our teachers have been attending several workshops and webinars throughout the year to continuously adapt themselves to newest pedagogical tools of the 21st century.

Ms Jyothi N Belavadi
Coordinator

Let us hope to create young innovative minds for the future!

Middle Block

In sync with NEP, St. Joseph's curriculum is based on the ground reality of the country's education scenario that puts more emphasis on the creativity, innovation and personality development of the students rather than expecting them to score high and memorize content without conceptual understanding.

We, at Middle Block always focus on core essentials. For that efforts have been made to do mapping of the curriculum across grades and narrowing it to the respective core knowledge only. The focus will be on practical application-based learning. This reduction will create space to add activities related to experiential learning, creative and critical thinking skills.

This will help in transiting from rote learning and memorising to actual conceptual understanding. We have adopted the top-down approach of shifting from syllabus completion to defining learning goals, curate classroom instruction through innovative pedagogy and link assessments to these goals. Multidisciplinary approach will facilitate creation of a holistic learning experience for students along with the component of economic and digital literacy and building scientific temper.

We aim to take the learning outside the four walls of a classroom and encourage students to imbibe from the real-world. This is where the concept of 'learning how to learn' comes in.

With an aim to abandon the redundant culture of bookish learning, this session a innovative approach of teaching General knowledge via newspapers and well-crafted activities will also be incorporated in the curriculum. So there will now be a move to real, holistic learning that equips individuals with 21st century skills. Curriculum will be embedded with Literary and creatively crafted activities to enhance their communication skills and to bring out the best of the young ones.

Instead of focusing on grades and yearly curriculum schedules, the main focus will be placed on how competent each student is in the subject. This means that students can only move forward when they can demonstrate mastery.

Ms Ranipal
Coordinator

Secondary Block

In the words of one of the greatest minds of our times Albert Einstein, "Education is not the learning of facts but the training of the mind to think."

NEP 2020 is a paradigm shift to minimize rote learning and instead encourage holistic development through 21st Century Skills such as Critical Thinking, Creativity, Scientific Temper, Communication, Collaboration, Problem Solving, Ethics, Digital Literacy and Real Life Connect.

At the Secondary level, we have already assimilated Experiential and Active learning with Art Integrated Pedagogy, Blended Learning and Multidisciplinary Discussions in our curriculum seamlessly. To make education more interesting not only in classrooms but also beyond them, activities and research work is used to achieve the Mastery Goals.

While keeping the essential core content intact we make space for holistic, discussion based, inclusive and analysis-based learning to eliminate rote learning completely. We have changed our Question Paper pattern to meet CBSE guidelines in accordance with NEP and the addition of HOTS and the practical embracing of Bloom's Taxonomy is incorporated in all the subjects. In the words of G.K. Chesterton, "Education is simply the soul of a society as it passes from one generation to another." So, with our progressive outlook we are aiming to open the hearts and minds of our students to the unbelievable wonders of this world.

In order to achieve all this the teachers of the Secondary block regularly attend a number of capacity building programs and other various professional development training programmes mainly in the areas of competency-based learning, 21st century life skills, subject specific programs for skills enhancement, Remodelled structure of assessment, Gender sensitivity, Classroom management, Value and Inclusive education, and Joyful learning.

We believe strongly that Education is a social process. Education is growth. Education is not a preparation for life; it is life itself.

Ms Priyadarshini Sebastian
Coordinator

Senior Secondary Block

As we begin a new session, I would like to take a moment to express how grateful and proud I am to be part of this school community. Despite the challenges we faced last year, we came together and showed resilience, determination, and compassion.

For our students in classes 11 and 12, this year will be an important milestone in your academic journey. You are embarking on a new phase of learning that will prepare you for the challenges and opportunities that lie ahead. I want you to know that we are here to support you every step of the way. Our teachers and staff are committed to providing you with a high-quality education that will help you achieve your goals.

To our parents, I want to assure you that we understand the trust you have placed in us to educate and care for your children. We take this responsibility seriously and are committed to creating a safe, nurturing, and inclusive environment where your children can thrive. We value your partnership and encourage you to stay involved in your child's education.

Finally, I want to acknowledge the emotional toll that the adversities put on us and we recognize that it becomes all the more challenging time for our 21st-century students. As we move forward, we will continue to prioritize our school community's well-being and mental health while paving way for critical thinking, personalized learning, and project-based learning and focusing on technology integration. We encourage you to stand with your ward in the upcoming academic year to let him be strengthened. Please feel free to reach out for support whenever needed.

I want to wish you all a successful and fulfilling academic year. Let's work together to make this year the best it can be.

Ms Meena Sharma
Vice Principal &
Coordinator
